

Criterion 7 - Institutional Values and Best Practices (100)

7.1 Institutional Values and Social Responsibilities (50)

Environmental Consciousness and Sustainability and Divyangjan friendly initiatives

- 7.1.3 Quality audits on environment and energy regularly undertaken by the Institution. 10
The institutional environment and energy initiatives are confirmed through the following
1. Green audit / Environment audit
 2. Energy audit
 3. Clean and green campus initiatives
 4. Beyond the campus environmental promotion and sustainability activities

Acknowledgement

PowerTech Energy Solutions extends gratitude to Pravara Rural College Of Architecture, Loni for extending us the opportunity to conduct the Energy & Green Audit.

We are thankful to the professors & supporting staff of the college for their transparency & consistent support in sharing relevant information and for providing data about policies and projects along with their other valuable information. This report would have not been possible without their support.

The study team would like to acknowledge the following distinguished personnel's of college

- **Ar. Tejashree Thangaokar – Principal (Feb 2022 Onwards)**
- **Ar. Rajeshwari Jagtap – Principal (Dec 2018 to Feb 2022)**
- **Ar. Deepika Arbatti – Co-Ordinator**
- **Ar. Tejaswini Gholap – Co-Ordinator**

4th October, 2022

CERTIFICATE OF REGISTRATION FOR CLASS 'A'

We hereby certify that, the firm having following particulars is registered with **MAHARASHTRA ENERGY DEVELOPMENT AGENCY (MEDA)** under given category as "Energy Planner & Energy Auditor" in Maharashtra for Energy Conservation Programme of MEDA.

Name and Address of the firm : M/s PowerTech Energy Solutions
Office No. 10, B-wing, 3rd floor,
Phuge Prima, Bhosari Dighi Road Bhosari,
Pimpri Chinchwad- 411,039.

Registration Category : *Empanelled Consultant for Energy Conservation Programme for Class 'A'*

Registration Number : *MEDA/ECN/2022-23/Class - A/EA-31*

- Energy Conservation Programme intends to identify areas where wasteful use of energy occurs and to evaluate the scope for Energy Conservation and take concrete steps to achieve the evaluated energy savings.
- MEDA reserves the right to visit at any time without giving prior information to verify quarterly activities performed by the firm and canceling the registration, if the information is found incorrect.
- This empanelment is valid till **3rd October, 2024** from the date of registration, to carry out energy audits under the Energy Conservation Programme
- The Director General, MEDA reserves the right to cancel the registration at any time without assigning any reasons thereof.

General Manager (EC)

1 About College

Pravara Rural College of Architecture, Loni started on a small campus in 1996 with 4 teachers and 20 students. It has bloomed into a college with an expansive, independent campus with 16 teachers and 40 students in 2018-19. The institute is one of the most prominent architecture colleges in rural areas.

Upgrading the residential standards of rural residents is one of the mottos. Annual seminars, study tours, workshops, settlement study, and guest lectures impart students the knowledge of latest architectural developments, traditional Indian architecture, and rural architecture.

A spacious campus is loaded with modern infrastructure facilities and we back it up with a barrier-free ambience for unrestricted student development. College alumni have made a name for themselves in multinational and national architecture firms as well as in governmental and semi-governmental departments.

After successfully hosting Zonal National Association of Students of Architecture (NASA) in 2009 and 2012, we also hosted the State level Seminar “Design in Architecture Curriculum Methods and Model of Teaching” in January 2016.

1.1 Mission

M1:-To develop the students for professional excellence and personal development in the field of architecture.

M2:-To develop professionals in the field of architecture, who can serve as innovators and creators of national and global economic growth.

M3:- To develop the students for leadership roles with skills & knowledge to improve the quality of the built environment on both national and international level through collaborations in the field of architecture.

1.2 Vision

To create excellent professional graduates for the contemporary architectural industry and socially responsible Architects who will play a key role in shaping the rural and urban sustainable development.

2 Energy Audit

An energy audit is an inspection, survey and analysis of energy flows, for energy conservation in a building, process or system to reduce the amount of energy input into the system without negatively affecting the output(s). In commercial and industrial real estate, an energy audit is the first step in identifying opportunities to reduce energy expense and carbon footprints.

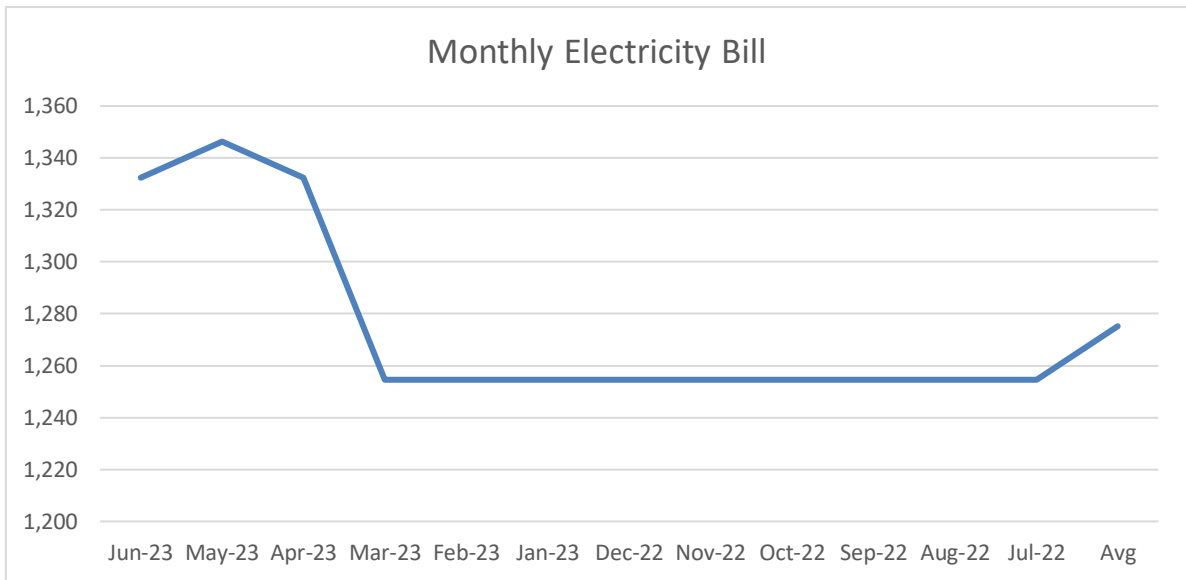

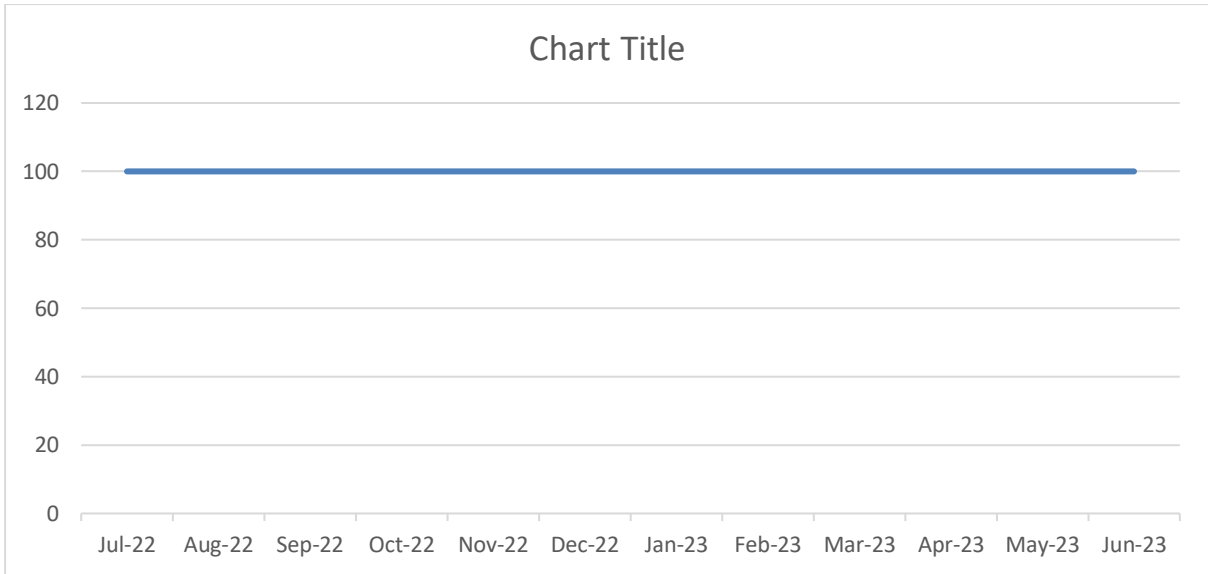

2.1 Electricity Bill Analysis

At present, one electricity meter is there for all campus

Bill analysis for consumer number 174462986503 shown below

2.5 Percentage Wise Distribution of Lighting

All the tubes used are of LED type.

Type of Light	Total Nos.	% Use
LED	59	100%
Total	59	

3 Requirements of NAAC

3.1 Alternative Energy Initiative

3.1.1 Percentage of lighting power requirement met through LED bulbs

= (Lighting power requirement met through LED bulbs / Total lighting power requirement) X 100

= (326.04/326.04) X 100

= **100 %**

3.1.2 Percentage of lighting power requirement met through renewable energy sources

= (Lighting power required met through renewable sources / Total lighting power requirement) X 100

= (0 / 100) X 100

= **0 %**

4 Green Audit

Green audit was initiated with the beginning of 1970s with the motive of inspecting the work conducted within the organizations whose exercises can cause risk to the health of inhabitants and the environment. It exposes the authenticity of the proclamations made by multinational companies, armies and national governments with the concern of health issues as the consequences of environmental pollution. It is the duty of organizations to carry out the Green Audits of their ongoing processes for various reasons such as; to make sure whether they are performing in accordance with relevant rules and regulations, to improve the procedures and ability of materials, to analyze the potential duties and to determine a way which can lower the cost and add to the revenue. Through Green Audit, one gets a direction as how to improve the condition of environment and there are various factors that have determined the growth of carrying out Green Audit. Some of the incidents like Bhopal Gas Tragedy (Bhopal; 1984), Chernobyl Catastrophe (Ukraine; 1986) and Exxon-Valdez Oil Spill (Alaska; 1989) have cautioned the industries that setting corporate strategies for environmental security elements have no meaning until they are implemented.

Green Audit is assigned to the Criteria 7 of NAAC, National Assessment and Accreditation Council which is a self-governing organization of India that declares the institutions as Grade a, Grade B or Grade C according to the scores assigned at the time of accreditation.

The intention of organizing Green Audit is to upgrade the environment condition in and around the institutes, colleges, companies and other organizations. It is carried out with the aid of performing tasks like waste management, energy saving and others to turn into a better environmental friendly institute.

4.1 Goals of Green Audit

- The objective of carrying out Green Audit is securing the environment and cut down the threats posed to human health.
- To make sure that rules and regulations are taken care of
- To avoid the interruptions in environment that are more difficult to handle and their correction requires high cost.
- To suggest the best protocols for adding to sustainable development

4.2 Benefits of Green Audit

- It would help to shield the environment
- Recognize the cost saving methods through waste minimizing and managing
- Point out the prevailing and forthcoming complications
- Authenticate conformity with the implemented laws
- Empower the organizations to frame a better environmental performance
- It portrays a good image of a company which helps building better relationships with the group of stakeholders
- Enhance the alertness for environmental guidelines and duties

5 Initiatives by College

5.1 Tree Plantation

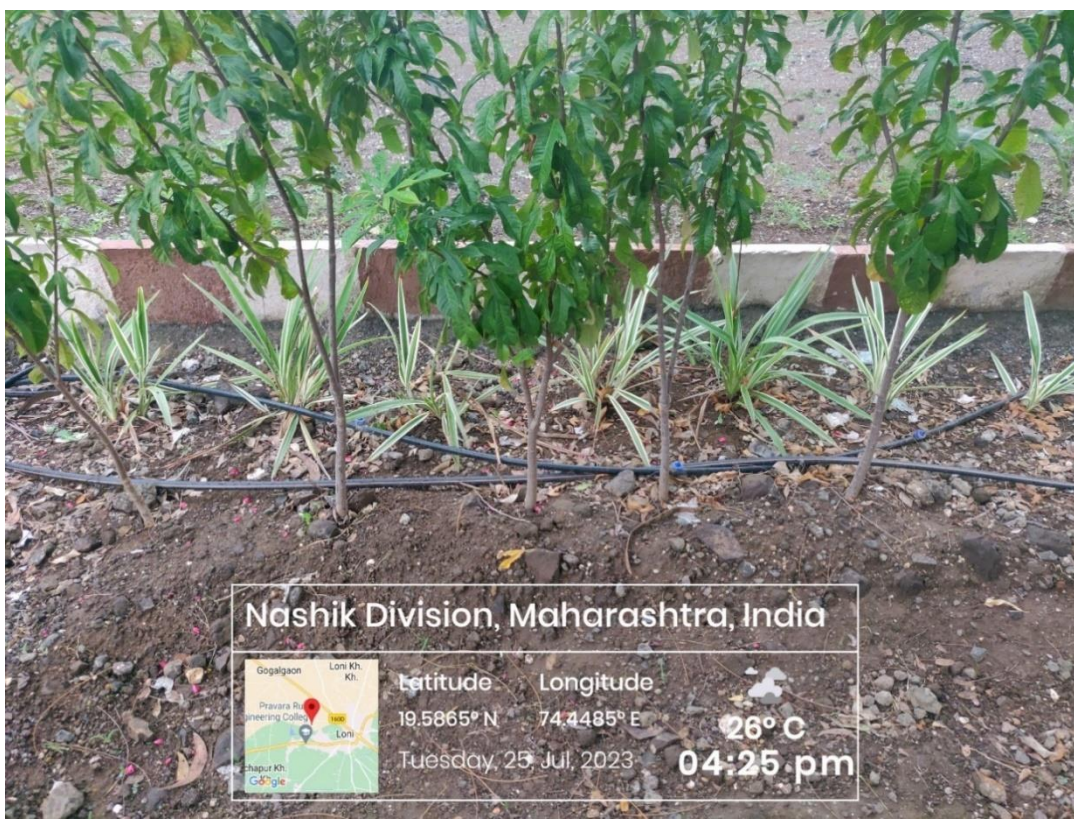

Tree-planting is the process of transplanting tree seedlings, generally for forestry, land reclamation, or landscaping purpose. It differs from the transplantation of larger trees in arboriculture, and from the lower cost but slower and less reliable distribution of tree seeds.

In silviculture the activity is known as reforestation, or afforestation, depending on whether the area being planted has or has not recently been forested. It involves planting seedlings over an area of land where the forest has been harvested or damaged by fire, disease or human activity. Tree planting is carried out in many different parts of the world, and strategies may differ widely across nations and regions and among individual reforestation companies. Tree planting is grounded in forest science, and if performed properly can result in the successful regeneration of a deforested area. Reforestation is the commercial logging industry's answer to the large-scale destruction of old growth forests, but a planted forest rarely replicates the biodiversity and complexity of a natural forest.

Because trees remove carbon dioxide from the air as they grow, tree planting can be used as agro engineering technique to remove CO₂ from the atmosphere. Desert greening projects are also motivated by improved biodiversity and reclamation of natural water systems, but also improved economy and social welfare due to increased number of jobs in farming and forestry.

College has planted the trees campus area to make it more environments friendly. Below are the some records, photos which shows the

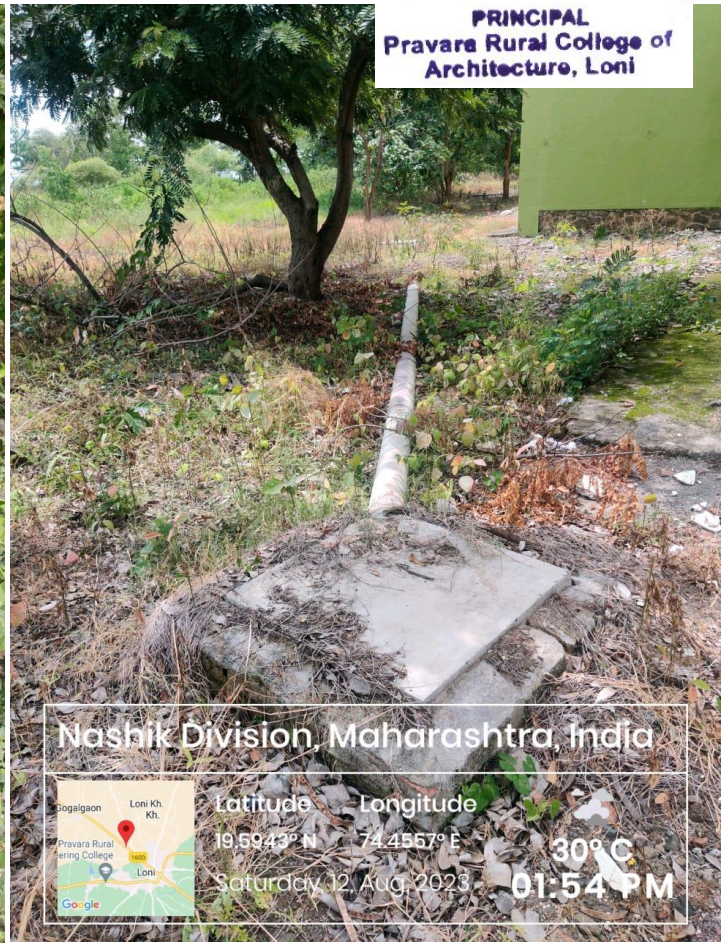

Efficient irrigation: Drip irrigation is used in gardens and landscapes, as they deliver water directly to

plant roots, minimizing water loss through evaporation and runoff.

Drip irrigation for tree plantation

Soak pits

Liquid waste from toilets is channeled through pipes into soak pits

5.2 Rain Water Harvesting

Rainwater harvesting: College implement rain water harvesting that collect and store rainwater from rooftops of college surfaces in tanks and later use for gardening.

Schematic of rain water harvestin system is shown below

5.3 Vermicomposting

A college established a vermicompost pit in the campus with the aim of managing organic waste more sustainably. The project required **1500 kg** of non-degradable waste and **4 kg** of earthworms to initiate the vermicomposting process. The vermicomposting pit successfully transformed these materials, resulting in the production of **1000 kg** of nutrient-rich vermicompost. This process highlights the college's commitment to environmental responsibility and the reduction of waste through innovative and eco-friendly practices. The vermicompost produced through this sustainable initiative found multiple valuable applications within the college's ecosystem. Apart from enriching the soil for tree planting, the nutrient-rich vermicompost was used to nourish the college's gardens and flower beds.

Mr. Rajendra Padghalmal elaborated on Sant Gadgebaba's emphasis on rural development

Ar. Kapil Burhade give vote of thanks to Mr. Rajendra Padghalmal

Summary:

The event commenced with a warm welcome to Mr. Rajendra Padghalmal, whose extensive knowledge and deep understanding of Sant Gadgebaba's teachings added immense value to the occasion. Students, faculty, and staff eagerly gathered to gain insights into the life and philosophy of the great saint. Mr. Rajendra Padghalmal elaborated on Sant Gadgebaba's emphasis on rural development, agricultural practices, and community service. The lecture highlighted the saint's timeless messages of simplicity, environmental consciousness, and spiritual growth.

The lecture highlighted Sant Gadgebaba's teachings on simple living, minimizing waste, and adopting eco-friendly practices. Mr. Rajendra Padghalmal eloquently narrated the life journey of Sant Gadgebaba and his teachings on living in harmony with nature. Mr. Rajendra Padghalmal also shared practical insights on how the college could implement eco-friendly initiatives, such as waste management, energy conservation, and promoting green spaces on the campus. The audience was inspired by Sant Gadgebaba's unwavering commitment to promoting education and his vision for a harmonious society where individuals worked together for the greater good. The event concluded with a vote of thanks to Mr. Rajendra Padghalmal for his invaluable insights

Cleaning of college entrance by staff

T.y. students set out to clean the lawns, common areas, and recreational spaces

Summary

On June 5, 2022, Pravara Rural College of Architecture commemorated World Environment Day by organizing a campus cleaning activity. It was open to all students and staff of PRCA. The purpose of this initiative was to raise awareness about environmental conservation, promote sustainable practices, and instill a sense of responsibility towards maintaining a clean and eco-friendly campus environment. There is total 66 number of students participates in campus cleaning activity.

The campus cleaning activity commenced at 10:30am in the presence of faculty members and student volunteers. The event coordinator Ar. Tejaswini Gholap delivered a brief introductory speech, emphasizing the significance of World Environment Day and the role of each participant in making a positive impact on the environment.

Key activities during the event included:

- Litter Collection: Participants, divided into groups, were assigned specific areas on the campus to collect litter and waste materials. Eco-friendly bags were provided for segregating recyclable items.
- Green Spaces Enhancement: Some teams focused on enhancing the beauty of green spaces by pruning plants, weeding, and clearing debris.
- Plastic Waste Awareness: Throughout the activity, volunteers engaged in discussions about the harmful effects of plastic pollution and the importance of reducing plastic usage.
- Electronic Waste Collection: A designated collection point was set up for gathering electronic waste, such as old electronic devices and batteries, for proper recycling.

The event successfully raised awareness about environmental issue. The event not only cleaned up the campus but also created a heightened sense of environmental consciousness among the students.

NOTICE

This is to inform all the students that a cycling competition is being organised to commemorate "World Bicycle Day 2022." This event aims to promote the importance of sustainable transportation, encourage a healthy lifestyle, and foster a sense of community among cycling enthusiasts within our college.

Event Details

Event Name: World Bicycle Day 2022 Cycling Challenge

Date: 03/06/2022.

Slow Cycling Competition for Female Students: One of the highlights of this event is the slow cycling competition specifically designed for our female students. This competition aims to showcase balance, control, and patience on two wheels. Participants will cycle along a 100-meter path, and the one who completes the distance at the slowest pace without touching the ground will be declared the winner. It's not about speed, but about precision and skill!

Time: 4pm to 4.30pm

Starting Point: PRCA watchman cabin

Fast Cycling Competition for Male Students: Calling all male students who have a need for speed! Our fast-cycling competition is designed to challenge your cycling prowess and showcase your pedal power. The competition will take place over a designated distance of 7km

Time: 4.30pm to 6.00pm

Starting Point: PRCA watchman cabin

Finish Line: PRCA watchman cabin

Participation: Open to all boy's students and faculty members

Route for: PRCA Entrance (Starting point), Lontek mandir, Chandrapur road, Hasnapur loni road, Sadhatpur road, Pravara Rural college of architecture Entrance (End Point)

Registration: To participate in the cycling competition, interested students and faculty members can register names to student coordinator Ritanshu Kharde

Safety Measures: The safety of all participants is our top priority. We will have designated marshals and medical personnel along the route to ensure a secure and enjoyable event.

Summary

On 3rd June 2022, Pravara Rural College of Architecture organized a Cycling competition to celebrate "World Bicycle Day." The event aimed to promote cycling as a sustainable and healthy mode of transportation while fostering a sense of community among students and faculty. The event took place at the PRCA Watchman Cabinet, where participants, students, and staff members gathered to celebrate the joy of cycling. The weather was perfect for an outdoor event, adding to the overall enthusiasm of the day. The event saw a total of 9 participants in the cycling competitions, with 6 boys participating in the fast-cycling competition and 3 girls competing in the slow cycling competition. Additionally, around 30 other students and staff members joined in to witness and support the participants.

The girls' slow cycling competition was a display of balance, control, and precision. Participants navigated a 100-meter path at a leisurely pace, showcasing their ability to maintain balance without touching the ground. Pratiksha Tikande showcased remarkable skill and patience, earning her the title of the winner in the slow cycling competition. The event was a testament to our commitment to sustainable transportation and a healthy lifestyle. The participants and attendees alike embraced the spirit of cycling, contributing to a greener environment and healthier lives. The event also featured a fast-cycling competition for male students, challenging their cycling prowess and pedal power. The competition covered a designated distance of 7 km, providing an exhilarating opportunity for participants to demonstrate their speed and endurance. Ritanshu Kharde is the 1st winner of Fast cycling competition. Both events promoted inclusivity, involving all students and faculty members. The activities not only emphasized physical activity but also brought the college community closer.

The competition was coordinated by Ar. Tejaswini Gholap, the teacher coordinator, who ensured the smooth organization of the event. At the end of the event Ar. Tejaswini Gholap, the teacher coordinator, expressed her gratitude to the principal, Ar. Tejashree Thangaokar, and all the participants for their support in organizing and participating in the event. She also thanked the faculty members, college staff, and volunteers who contributed to the seamless execution of the competition.

Student Coordinator:	Shrawani Burhade
Guest Person:	-
Aim:	To spread awareness among the students about contributing their ideas for India through sketching on occasion Birthday of our Honourable chairman Shri. Radhakrishnaji Vikhe Patil.
Objectives	I. To know their contribution of the ideas for society II. To promote environmental awareness
Date:	15/06/2022
Duration:	3 Hour
No Of Participants:	18
Summary	<p>On the occasion of birthday of our honorable Chairman Shri. Radhakrishnaji Vikhe Patil sir (Chairman - Loknete Dr. Balasaheb Vikhe Patil Pravara Education Society) Pravara Rural College of Architecture held a poster making competition. The event aimed to commemorate the Chairman's birthday by promoting environmental awareness and inspiring the college community to take active steps towards conserving nature and protecting the environment, to spread awareness among the students about contributing their ideas for India through sketching and to express their concerns about gender discrimination</p> <p>The competition took place in the college premises and saw enthusiastic participation from students across various disciplines. All together there were 18 participants. the participants were from 1st to 5th year. As the competition started, students immersed themselves in the artistic process, using colors, pens, and other creative tools to bring their ideas to life on the canvas. Each poster conveyed a powerful message about the importance of saving the environment, addressing issues such as climate change, pollution, deforestation, and the need for sustainable practices.</p>

The competition served as a platform for students to express their concerns about gender discrimination, female foeticide, child marriage, and the importance of educating and empowering girl children. The prizes were Rs 1000/-, 500/- & a book as per the 1st, 2nd & 3rd rank respectively. The result was announced on 17 of August in P.R.C.A premises.

Ar. Tejaswini Gholap thanked Student and staff for successfully participating in that fruitful activity.

On the Occasion of the 63rd birthday of honourable chairman Shree. Radhakrishnaji Vikhe patil , we are arranging Poster making competition

Topics

1. Save Girl Child
 2. 75th Independence Year (Azadi ka Amrut mahotsav)
 3. Save Environment

Summary

On the occasion of the cultural gathering at Pravara Rural College of Architecture (PRCA), a captivating fashion show was organized for the 3rd-year students. The fashion show was centered around the theme of recycling, promoting eco-friendly practices and creativity among the participants. Students took an active part in the event, showcasing their artistic flair and passion for sustainability. They were tasked with designing dresses using old folio covers from their portfolios and recycled newspapers, turning waste materials into stunning fashion statements.

The runway came alive with an array of unique and innovative designs, each reflecting the students' individuality and dedication to promoting environmental consciousness. After an enthralling display of eco-fashion, the panel of judges carefully evaluated each design based on creativity, craftsmanship, and adherence to the recycling theme. Amongst the talented participants, Phaphale Sakshi and her group stood out with their exceptional and striking design, earning them the title of the fashion show's winners.

The Recycling Themed Fashion Show at PRCA not only showcased the students' creativity and talent but also emphasized the importance of sustainable fashion in today's world. It served as an inspiration for all attendees to think creatively and responsibly in their approach to fashion, promoting a greener and more environmentally conscious lifestyle.

The Principal of Pravara Rural College of Architecture, Ar. Tejashree Thangaokar, expressed her delight in witnessing the Recycling Themed Fashion Show. In her address to the audience, she commended the students for their exceptional creativity and dedication to sustainability.

Students participated in Ganesh making idol workshop

Students are making Ganesh idol made from Shadu clay for College ganesh festival

Summary

The Eco-friendly Ganesh Idol Making Workshop was organized by Pravara Rural College of Architecture on 27th August 2022, the workshop was conducted at the PRCA campus, and it garnered enthusiastic participation from both students, faculty members and outsider.

Led by Teacher Coordinator Ar. Kapil Burhade and Student Coordinator Namrata Chavhan, the workshop featured a sculptor Mr. Ninand Jadhav as the guest.

The workshop commenced with an inaugural address by Mr. Ninand Jadhav, an artist and guest for the event. He enlightened the participants about the importance of eco-friendly practices and the adverse effects of conventional Ganesh idols on the environment.

He emphasized the use of clay which is biodegradable and do not cause harm to water bodies during immersion.

To foster a spirit of inclusivity, the event hosted a competition open to outsiders and their families. This gesture encouraged wider participation and reinforced the importance of environmental sustainability in celebrations.

The workshop took an inspiring turn as the participants, numbering 77, not only learned the art of making eco-friendly idols but also extended their creativity towards making additional idol for the college's upcoming Ganesh festival. These idols were distributed among the college sweepers and workers, spreading the importance of eco-friendly practices, joy and camaraderie within the campus community.

The main segment of the event involved a hands-on session where participants were provided with eco-friendly materials (Shadu Maati) to create their own Ganesh idols. Expert instructors, along with faculty and student coordinators, guided the participants through the process. The participants were enthusiastic and showcased great creativity in their creations.

The instructors demonstrated the best practices for sculpting the idols, using natural colours and eco-friendly adhesives. They also shared tips on ensuring the structural integrity of the idols during the making process.

After the hands-on session, a lively and interactive Q&A session was conducted. Participants had the opportunity to clarify their doubts and seek further guidance on eco-friendly practices from Mr. Ninand Jadhav.

The organizers Ar. Kapil Burhade express their heartfelt gratitude to Mr. Ninand Jadhav for his invaluable insights and guidance, which greatly enriched the workshop. Special thanks are extended to all the participants, both from within and outside the college, for their active engagement and enthusiasm in making the event a resounding success.

NOTICE

This is to inform all the students that a cycling competition is being organised to commemorate "World Bicycle Day 2022." This event aims to promote the importance of sustainable transportation, encourage a healthy lifestyle, and foster a sense of community among cycling enthusiasts within our college.

Event Details

Event Name: World Bicycle Day 2021 Cycling Challenge

Date: 03/06/2021.

Time: 3.30 pm

Starting Point: PRCA Entrance

Finish Line: PRCA Entrance

Participation: Open to all students and faculty members

Route Details: 6.5 km

- Start Point: College Entrance Gate
- Sadatpur Road
- Utility Complex
- Loni Sangamner Highway
- Lokmanya Store
- Lontake Temple
- PRCA Entrance Gate (Finish Line)

Registration: To participate in the cycling competition, interested students and faculty members can register names to student coordinator Prathamesh Rathi

Safety Measures: The safety of all participants is our top priority. We will have designated marshals and medical personnel along the route to ensure a secure and enjoyable event.

2021-22	Cycling competition to commemorate the "World Bicycle Day" 2021"
Location:	PRCA watchman cabinet
Teacher coordinator:	Ar. Tejaswini Gholap
Student Coordinator:	Prathamesh Rathi
Guest Person:	-
Aim:	To commemorate "World Bicycle Day 2021" at the college are to promote and celebrate the spirit of cycling while highlighting the importance of sustainable transportation and a healthy lifestyle
Objectives	<ol style="list-style-type: none">I. To actively participate in the global celebration of this important dayII. To Promote Health and Well-being: Cycling is an excellent form of exercise that contributes to physical fitness and overall well-being.III. Encourage students and faculty to engage in physical activity by cycling, promoting a healthy lifestyle, and enhancing their overall fitness levels
Date:	03/06/2021
Duration:	1 and half hour
No Of Participants:	37 (Participants 5)
Photographs	<div style="display: flex; justify-content: space-around;"><div style="text-align: center;"><p>1st prize winner of the competition- Chaitanya Jadhav</p></div><div style="text-align: center;"><p>Participated students during competition</p></div></div>
Summary	PRCA organized a cycling competition to commemorate the "World Bicycle Day 2021" on 03.06.2021, Venue: College Watchman cabin from 03:30 PM to 04:00 PM. PRCA. The primary objective of this commemorative day celebration is to insist about the awareness among students on the importance of the Bicycle and its utilization.

The cycling competition started promptly at 03:30 PM from the college entrance gate. The participants followed a well-planned route that traversed through various landmarks in and around the college campus. The 6.5 km route was as follows:

- Start Point: College Entrance Gate
- Sadatpur Road
- Utility Complex
- Loni Sangamner Highway
- Lokmanya Store
- Lontake Temple
- PRCA Entrance Gate (Finish Line)

A total of six students from PRCA participated in the cycling competition. Their enthusiasm and determination were evident throughout the event. The audience have cherished the participants more during the event. The staff and faculty members of PRCA were present at the finish line to congratulate and felicitate the winners. The event was successfully coordinated by Ar. Tejaswini Gholap, who efficiently managed the logistics and ensured a smooth execution of the cycling competition. At the conclusion of the cycling competition, the participants reached the finish line, where the winners were announced and felicitated. Chetan Jadhav emerged as the winner of the competition, securing the first prize. Nitesh Tirke secured the second position and was awarded the runner-up prize. Both winners exhibited exceptional cycling skills and determination during the race.

Summary:

The Art Installation Workshop from Scrap, held at the Pravara Rural College of Architecture (PRCA) in Loni, aimed to convert students' abstract ideas into tangible model forms using discarded materials. Coordinated by Ar. Dipeeka Arbatti and Ar. Ashwini Gholap, with Nilesh Nehe as the Student Coordinator, the workshop took place on January 8th, 2020. With the goal of providing hands-on experience in model-making and fostering creativity, the workshop attracted 29 enthusiastic participants. Through creative thinking and innovation, participants were encouraged to envision and create abstract objects using metal scrap materials. Participants learned how to transform discarded materials into functional and aesthetically pleasing installations, enhancing their understanding of design and construction processes. Participants brainstormed abstract ideas, exploring a range of themes and concepts that would later be translated into their installations.

Utilizing discarded materials such as metal scraps, participants carefully selected the appropriate metal members to bring their ideas to life. Guided by the coordinators and fabricated, students delved into the hands-on process of cutting, shaping, and assembling materials to create their art installations. As they worked on their projects, participants gained valuable insights into fabrication techniques, understanding how different materials could be manipulated to achieve specific visual and structural effects.

At the end of the workshop, each participant presented their installation, explaining their concept, materials used, and the creative process behind their work. The organizing team extended appreciation to the fabricator for their help and guidance, the attendees for their active participation.

Summary

The Pravara Rural College of Architecture (PRCA), located in Loni, organized a comprehensive Bamboo Workshop on its campus. The workshop aimed to provide students with hands-on experience in working with bamboo, teaching them the techniques of bamboo treatment, preparation, and construction. Led by Architect Pravin Jamdade and supported by student coordinator Aher Apeksha,

the workshop featured guest speakers Miss Shilpa Mandadkar and Mr. Ninad Sonawane. It was held from August 19th to August 21st, 2019, and witnessed the participation of 78 enthusiastic students.

The workshop drew the participation of 78 students, all eager to learn and gain practical skills in bamboo construction. Before the actual construction process, students were taught the vital step of bamboo treatment. This involved techniques to enhance the durability and longevity of bamboo by treating it against pests, decay, and environmental factors. Additionally, participants learned the art of selecting and cutting bamboo of various sizes suitable for the intended constructions.

A significant focus of the workshop was the construction of a geodesic dome using bamboo. Geodesic domes are complex structures composed of triangular elements that distribute loads efficiently while maintaining structural integrity. Under the guidance of Architect Pravin Jamdade, students collaborated to assemble the bamboo components, using techniques they had learned during the workshop. This hands-on experience allowed them to understand the challenges and intricacies of building with bamboo in the unique context of a geodesic dome.

In addition to the dome, students also explored the creation of furniture using bamboo. Various pieces such as central tables, seating arrangements, planter stands, and stools were crafted. This provided participants with a well-rounded understanding of bamboo's versatility in design and functionality.

Miss Shilpa Mandadkar and Mr. Ninad Sonawane, the guest speakers for the workshop, shared their insights and experiences in working with bamboo. Their sessions expanded the participants' knowledge beyond the practical aspects, touching on the cultural and environmental significance of bamboo as a sustainable material.

They also provided valuable insights into the intricacies of using bamboo in construction. As the Bamboo Workshop concluded, it left an indelible mark on the participants of PRCA. The blend of hands-on experiences and expert guidance showcased the potential of bamboo as a sustainable and innovative construction material. This event aptly encapsulated PRCA's commitment to bridging the gap between theoretical knowledge and practical application. At the end teacher coordinator Ar. Pravin Jamdadhe express their heartfelt gratitude to Miss Shilpa Mandadkar and Mr. Ninad Sonawane, the guest speakers for the workshop for guidance, which greatly enriched the workshop. Special thanks are extended to all the participated students, staff.

Salient Features of Bamboo Workshop :

- Expert Lecture on bamboo as building material
- Understanding properties of bamboo, Geometry of structures made out of bamboo
- Hands on experience of tools used for bamboo construction
- Hands on experience of constructing structures & furniture from bamboo

Schedule :

Day : 1

- ✓ Brief Introduction to bamboo as a building material
- ✓ Hands on of Erecting Bu Dia Geodesic Dome made of bamboo

Day : 2

- ✓ Hands on of Making door & window for Geodesic dome
- ✓ Hands on of Making Furniture from Bamboo

Day : 3

- ✓ Hands on of Making Furniture from Bamboo

Workshop Fee : Rs. 1,000 (Inclusive of 3 Days)

Date

Monday 19th August to
Wednesday 21st August 2019

Venue:

Amphitheatre,
Pravara Rural College of Architecture, Loni

Time : 9:00 AM to 6:00 PM. (Reporting Time 8:45 A.M.)

Subject : Letter of Appreciation

Dear Sir,

Thank you for conducting workshop on “**Bamboo as a Building Material**” for students studying B. Arch. At Pravara Rural College of Architecture, Loni on 19th August to 21st August 2019. Needless to say this will go a long way in creating the awareness about enhancing the knowledge and expertise among the students and faculty.

It was wonderful having you here for this workshop as it has proved to be conductive and contributing in raising the standard of education in this college. We are looking forward to working closely with you in near future.

Thanking You,

Yours Faithfully,

Rajeshwari

ECOLOGICAL LANDSCAPE REPORT

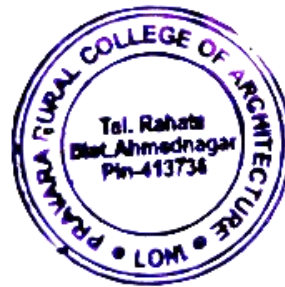

Important Aim and Objective of Ecological Landscape Area as Below

Aim:

To conserve the ecologically important perennial grasses and herbs in the campus.

Objectives:

- I. To Improve Soil Fertility.
- II. To Improve Soil Binding Capacity.
- III. To Conserve the Available Fodder for Wild Fauna
- IV. To reduce heating capacity of soil and control the temperature.
- V. To develop the process of ecological succession
- VI. To creates natural habitat for microorganisms by conservation of grasses and herbs

LIST OF ECOLOGICALLY IMPORTANT PROMINENT PERENNIAL GRASSES AND HERBS OF THE CAMPUS

No	Common name Of Grass	Botanical name	Ecological importance
1	<u>Kusali</u>	Themeda spp	<p>These species act as pioneering species and improve the organic matter in the soil to improve its fertility.</p> <ul style="list-style-type: none"> • So that the original conditions of the soil are attained which can support earlier superior forest species. • Though it may take years to restore back original forest, species like Themeda help to start that process on a barren land.
			
2	Pandhari Kusal	Aristida Spp	<p>One of the very important functions of grasses is their soil binding capacity.</p> <ul style="list-style-type: none"> • A grass from low rainfall area (av. 250 mm). As an adaptation to poor soil and stresses like fire and grazing, grass develops special part called awn, a stiff bristle, which protects grass seed from getting eaten and safe guards the next generation.
			
3	Devbhat	Oryza rufipogon	<ul style="list-style-type: none"> • Such wild edible species are also important from 'gene pool' point of view as they have marked resistivity for pests and have high nutrition value and so have great potential for domestication to fight food security.
			
4	Ran jwari	Sorghum deccanese	

			<ul style="list-style-type: none"> • Certain grass species are used in hybridization to develop domestic varieties. Its hardiness, marked resistivity for pests etc. are used. • This species is also used as fodder in certain areas. So, such wild breeds are important from conservation point of view.
5	Eulalia	Eulalia trispicata	<ul style="list-style-type: none"> • Perennial grasses like <i>Eulalia trispicata</i> are the best for providing insulation. When land is degraded, system to keep the soil alive is lost. • Top soil heats up during dry months and its regenerating capacity decreases. When worked with ecological restoration techniques, this soil shows step wise changes in grass communities.
			
6	Pond Lovegrass	Eragrostist japonica	<ul style="list-style-type: none"> • These grass species also change as per the habitat. Sometimes it also grows as weed in cultivated lands. It is also a good fodder species and is lactation stimulant for animals.
			
7	Lophopogon	Lophopogon tridentatus	<ul style="list-style-type: none"> • They serve as free pastures for cattle and other domestic animals. • Lophopogon tridentatus is one of the commonly grazed species. • It is eaten by cattle while in tender stage. Being hardy, it can grow even on poor soil. • Thus, wastelands can be converted into beautiful, productive landscapes, which in turn would boost up local ecological processes and strengthen natural biodiversity and ecosystems.
			

Result and conclusions:

Pravara Rural college Of Architecture, Loni college campus is rich in ecological landscapes. Around 70% of the college campus is under natural landscapes with no human intervention. This creates habitat for different kind of fauna. There are Seven prominent species of herbs and grasses which plays very important role in ecological succession, soil erosion control, heat reduction etc

NOTICE

Dear Students and Faculty Members, we are pleased to announce an upcoming Eco-friendly Ganesh Idol Making Workshop at Pravara Rural College of Architecture. The workshop aims to promote sustainable practices and create awareness about eco-friendly alternatives for traditional Ganesh idol making.

Date: 05/09/2018

Time: 10:00 AM to 1:00 PM

Location: PRCA Campus

Teacher Coordinator: Ar. Deepika Arbatti

Student Coordinator: Ruchita Gharte

Guest Speaker: Mr. Rajendra Ghodge

Fees: Free of cost

We invite all interested students and faculty members to participate actively in this insightful workshop. This event aligns with our commitment to environmental consciousness and sustainable practices in architecture. Let us come together to celebrate Ganesh Chaturthi in a way that not only reflects our cultural traditions but also respects and protects our environment. Interested participants are requested to register the names to Ar. Deepika Arbatti. For any queries or additional information, please contact Ruchita Gharte, Student Coordinator.

Aim:	To promote sustainable in campus and beyond the campus and environmentally conscious celebrations during the festive season
Objectives	<ol style="list-style-type: none">I. To spread sustainability beyond the college campus, creating awareness among those who play an integral role in maintaining the campus's environment.II. Educate participants about the environmental impact of POP idols and the benefits of using shadu clay.III. Demonstrate the step-by-step process of making eco-friendly Ganesh idols using shadu clay.IV. Encourage participants to create their unique Ganesh idols, instilling a sense of creativity and ownership in the celebration.
Date:	05/09/2018
Duration:	10am to 1pm
No Of Participants:	78
Photographs	 <p>Mr. Rajendra Ghodge teaching students about how to prepare shadu clay for idol making</p>

Mr. Rajendra Ghodge teaching students about how to shape shadu clay

Students work - Ganesh idol made from Shadu clay

Work of few participants - Ganesh idol made from Shadu clay

Summary

The Eco-Friendly Ganesh Idol Making Workshop using Shadu Clay aimed to promote sustainable and environmentally conscious celebrations during the festive season. Ganesh Chaturthi is a significant Hindu festival celebrated with great fervor and enthusiasm. Traditionally, idols were made using clay and immersed in water bodies after the festival to symbolize Lord Ganesh's return to nature. However, with the growing use of POP idols, environmental concerns arose due to their non-biodegradable nature, causing water pollution and harm to aquatic life.

The Eco-Friendly Ganesh Idol Making Workshop took place on 5th September 2018 at the PRCA Campus from 10:00 AM to 1:00 PM., inviting staff, students, and outsiders to participate. The workshop was led by Teacher Coordinator, Ar. Deepika Arbatti, who introduced participants to the eco-friendly properties of shadu clay. Expert guest Mr. Rajendra Ghodge, guided participants through various clay modeling techniques, encouraging them to shape the basic form of their Ganesh idols. Emphasizing creativity and personalization, participants were encouraged to add intricate details and decorate their Ganesh idols using non-toxic colors and natural materials.

The workshop fostered creativity and artistic expression among attendees, who crafted unique and visually appealing Ganesh idols using shadu clay, a biodegradable and eco-friendly alternative. The hands-on experience of clay modeling allowed participants, including 3rd-year students, to create Ganesh idols for the college's Ganesh festival. Moreover, the students went above and beyond, crafting extra Ganesh idols that were distributed to college workers and sweepers. This thoughtful gesture aimed to spread sustainability beyond the college campus, creating awareness among those who play an integral role in maintaining the campus's environment. The workshop's impact extended far beyond the college boundaries, as it welcomed outsiders to participate, encouraging community involvement in sustainable practices. By organizing the event free of cost and reaching out to outsiders, PRCA showcased its commitment to promoting sustainability not just within the campus but also in the broader community. The event brought staff, students, outsiders, and workers together, fostering a sense of environmental responsibility and inspiring individuals to adopt eco-friendly practices in their celebrations and daily lives.

The distribution of extra Ganesh idols to college workers and sweepers exemplified the workshop's broader message of sustainability, creating a ripple effect of awareness beyond the campus.

The workshop was structured into various activities, including:

- a) Introduction of Shadu Clay: The workshop began with an introduction to shadu clay, highlighting its eco-friendly properties and its significance in preserving the environment.
- b) Clay Modelling Techniques: Participants were guided through various clay modelling techniques, helping them shape the basic form of the Ganesh idol.
- c) Ornamentation and Detailing: In the next phase, participants were encouraged to add intricate details and decorate their Ganesh idols using non-toxic colors and natural materials.
- d) Eco-Friendly Immersion Process: Participants were briefed about the eco-friendly immersion process and its importance in protecting water bodies.

The Eco-Friendly Ganesh Idol Making Workshop concluded on a high note, leaving a lasting impact on all participants. As the event came to a close, the campus was adorned with beautifully crafted shadu clay Ganesh idols, made with love and care by staff and students and outsiders.

A handwritten signature in blue ink, appearing to read "Teo Rozette".

Summary

To showcase the gratitude towards the founder of this education society Late. Padamshree Viththalrao Vikhe Patil on his Death anniversary, College organized an event on tree plantation to create an awareness regarding climate change and its adverse effect on surrounding. The program started at 9:30am. The event began with heartfelt speeches and tributes, recounting the remarkable journey and selfless dedication of Padmabhushan Balasasheb Vikhe Patil. The tree plantation occasion at the college campus not only celebrated the life and vision of Padmabhushan Balasasheb Vikhe Patil but also demonstrated the college's commitment to environmental stewardship and sustainable practices. A 5 no. of native tree saplings, carefully selected for their environmental benefits, were chosen for the plantation.

Students, faculty, and staff enthusiastically participated in planting the saplings, cherishing the opportunity to contribute to environmental conservation in honour of the esteemed leader. All staff and students were present for tree plantation program. In the end, the principal Ar. Tejashree Thangaokar addressed and thanked Student and staff for successfully participating in that fruitful activity.

A handwritten signature in blue ink, appearing to be "Ar. Tejashree Thangaokar".

Summary

This initiative was organized to commemorate the birthday of the revered honourable Chairman Shri. Radhakrishnaji Vikhe Patil and honour his dedication to education, environmental conservation, and sustainable development.

The event commenced at 9:30 AM with a warm welcome to all participants and a brief introduction about the significance of the day. The birthday celebration of Shri. Radhakrishnaji Vikhe Patil offered the perfect opportunity to embrace his vision for a greener and more environmentally conscious society. The students, faculty members, and staff actively participated in planting the mango saplings.

It was held at college campus in the presence of guest honourable Shri. Dnyandev Mhaske Patil sir Director Loknete Dr. Balasaheb Vikhe Patil Pravara Education Society Pravaranagar. The event also featured interactive sessions with guest on environmental awareness, where students learned about the importance of preserving nature and adopting eco-friendly practices in their daily lives. By planting native saplings ahead of the rainy season, the college actively contributed to creating a greener and more sustainable campus environment. Throughout the event, 55 participants, driven by a sense of responsibility towards nature, planted a total of 5 native plants. This hands-on engagement emphasized the importance of students' roles in environmental stewardship and preservation. By nurturing these newly planted saplings, the college community is contributing to the ongoing effort of enhancing biodiversity, improving air quality, and combatting climate change. This event stands as a testament to the college dedication to holistic education that extends beyond the classroom.

In the end at 10.30am, the Ar. Tejashree Thangaokar principal PRCA thanked to Guest honourable Shri. Dnyandev Mhaske Patil sir Director Loknete Dr. Balasaheb Vikhe Patil Pravara Education Society Pravaranagar and all teaching, non-teaching staff for successful event and participating in that fruitful activity.

Watering plants by Kapil Burhade and other teaching, Non teaching staff

Summary

On December 30, 2020, Pravara Rural College of Architecture (PRCA) organized a commendable Tree Plantation Event on the occasion of Padmabhushan Dr. Balasaheb Vikhe Patil's Death Anniversary. Spearheaded by Ar. Kapil Burhade, the event aimed to pay homage to Dr. Balasaheb Vikhe Patil's legacy while promoting environmental conservation and sustainability. Despite the challenges posed by the COVID-19 pandemic, the college orchestrated a meaningful and impactful event.

Due to the ongoing COVID-19 pandemic, the event was limited to the college staff, with 8 teachers participating in total. Despite the constraints, the participants engaged in planting 5 native trees, contributing to the local ecosystem and demonstrating the college's dedication to sustainable practices. The event was conducted adhering to safety protocols, ensuring the well-being of all participants. The ceremony commenced with a tribute to Dr. Balasaheb Vikhe Patil's life and work, highlighting his significant contributions to education and rural development. The event provided an excellent opportunity for the college community to connect with nature and strengthen their commitment to environmental conservation.

Impact:

The event succeeded in achieving its intended impact:

- It honored the memory of Dr. Balasaheb Vikhe Patil, commemorating his contributions and inspiring others to follow in his footsteps.
- The planted trees added a touch of natural splendor to the campus, underscoring the institution's commitment to sustainability.
- By involving teachers, the event set an example for students, promoting a culture of environmental responsibility and care.
- The event effectively conveyed the importance of trees, fostering an increased understanding of their multifaceted significance.

Faculty members actively participated in planting the saplings. The activity is coordinated by Ar. Kapil Burhade. 08 staff are present for the activity. The college principal emphasized the importance of tree plantation and its relevance to Dr. Vikhe Patil's vision of a sustainable future for society. In the end at 10am, the Ar. Rajeshwari Jagtap principal PRCA thanks to all teaching, non-teaching staff for successful event.

Summary

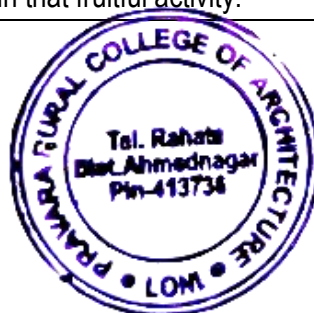

On January 26, 2019, Pravara Rural College of Architecture (PRCA) organized a meaningful Tree Plantation event on the occasion of Republic Day. This initiative, held at the PRCA Campus, was under the guidance of Ar. Sonali Chaskar, with student coordination led by Ruchita Gharte. The event was graced by Mr. Bhagwat Gholap, Director at PRES, as the guest person. The primary aim was to celebrate Republic Day while promoting environmental awareness and sustainable practices, enriching students' understanding of the cultural significance and positive impact of tree plantation. The event took place on the college campus at backside of administration block. Saw enthusiastic participation from students, faculty, and staff. The event, which lasted for an hour, saw the participation of 32 individuals. They collectively planted 20 native and medicinal plants, including mango trees, adding to the campus's ecological diversity. Mr. Bhagwat Gholap's presence enriched the event with valuable insights and perspectives, elevating the students' understanding of the importance of tree plantation and its alignment with cultural and environmental values. The chef guest, Honorable Mr. Bhagwat Gholap, director of PRES emphasized the importance of Republic Day and the role of citizens in contributing to the nation's well-being through environmental initiatives. This knowledge-sharing session enriched the experience and motivated the students to actively engage in tree planting activity.

Impact:

The Republic Day Tree Plantation event at PRCA in 2019 achieved multiple outcomes:

- It merged the celebration of Republic Day with an educational and environmental initiative, fostering a sense of responsibility among students.
- By involving a guest speaker, students gained valuable knowledge about the cultural significance of tree plantation, enhancing their awareness.
- The event's focus on biodiversity preservation reinforced the importance of native and medicinal trees in maintaining a healthy ecosystem.

By the end of the activity, several plants had been planted on the college campus, symbolizing the college's commitment to preserving its cultural heritage and contributing to a greener environment. In the end at 10am, the Ar. Sonali Chaskar thanked to Chef Guest and all teaching, non-teaching staff for successful event and participating in that fruitful activity.

Tree plantation by Ar. Anurag Doshi

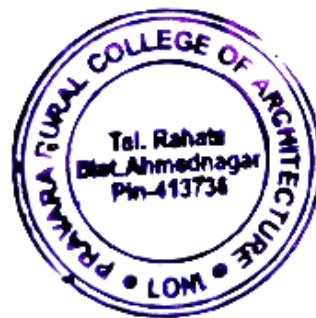

Summary

On August 15, 2018 Pravara Rural College of Architecture (PRCA) arrange a meaningful Tree Plantation event on the occasion of Independence Day. This initiative, held within the PRCA Campus, was overseen by Ar. Sonali Chaskar, with student coordination led by Kalyani Kharde. The event aimed to instill environmental awareness and nurture a strong sense of responsibility towards nature and the environment among both students and staff members.

The tree plantation initiative brought together a participant, including students, faculty members, administrative staff. The event began after flag hoisting ceremony. Principal Ar. Pradeep Balote talked about the importance of preserving the environment for future generations. After the ceremonial proceedings of flag hosting, everyone enthusiastically participated in the tree plantation activity. A variety of native saplings were provided, carefully chosen to suit the local ecosystem. The participants, armed with shovels and gardening tools, set out to dig holes and plant the saplings around the campus.

Taking place over an hour, the event saw enthusiastic participation from 73 individuals, including students and staff. Together, they planted 10 native plants, contributing to the greening of the campus and symbolizing their commitment to environmental well-being. The college's Independence Day tree plantation drive proved to be a grand success, leaving a positive impact on the campus and its community. By instilling a sense of responsibility towards nature, the college demonstrated its dedication to a greener and more sustainable future for India, aligning the celebration of independence with a commitment to the nation's environmental well-being. By the end at 10am, the Ar. Sonali Chaskar thanked to all for successful event and participating in that fruitful activity.

Summary:

The National Service Scheme (NSS) unit of PRCA organized an insightful and educative seminar on "Organic Farming, Importance, and Conservation of Medicinal Plants" at Adgaon Bk Village. The seminar aimed to create awareness among participants about sustainable agricultural practices and the significance of conserving medicinal plants for their immense ecological and medicinal value.

On January 09, 2023, a diverse group of 60 participants, including students, volunteers, and villagers, gathered at the Adgaon zilha parishad school (Camp Location) to attend the seminar. The event was facilitated by the Guest Speaker, Dr. A. S. Wable, a renowned expert in the field of agriculture and medicinal plants. The Teacher Coordinators, Ar. Sonali Chaskar, and Ar. Tejaswini Gholap, along with the efficient Student Coordinator, Amey Gadekar, played pivotal roles in organizing the seminar.

Seminar Highlights:

Expert Insights: Dr. A. S. Wable shared in-depth knowledge and valuable insights about the principles and practices of organic farming, emphasizing its importance in promoting environmental sustainability and food security.

Medicinal Plant Conservation: The guest speaker highlighted the significance of medicinal plants in traditional and alternative medicine systems, stressing the need for their conservation to preserve biodiversity and support human health.

Community Engagement: The seminar encouraged active participation and engagement, with attendees asking questions and sharing their experiences related to organic farming and medicinal plants.

Local Perspectives: Villagers from Adgaon Bk shared their traditional knowledge and experiences of using medicinal plants for various health remedies, enriching the seminar with indigenous wisdom.

Inspiring Success Stories: Dr. A. S. Wable shared success stories of communities that have adopted organic farming practices and the positive impact of medicinal plant conservation initiatives on local health and well-being.

The concluding moments of the seminar were filled with a sense of enlightenment and motivation, as participants took away valuable insights and knowledge from the event. The seminar's conclusion began with the organizers Ar. Sonali Chaskar expressing their heartfelt gratitude to the Guest Speaker, Dr. A. S. Wable, for gracing the event with his expertise and valuable inputs. The NSS program officer of PRCA Ar. Deepika Arbatti expresses its gratitude to the Guest Speaker, Dr. A. S. Wable, Teacher Coordinators, Ar. Sonali Chaskar, and Ar. Tejaswini Gholap for their meticulous organization and coordination of the seminar.

Students are painting tires

play structures made from tires such as tire swings, climbing frames, and play tunnels

Summary:

The NSS Unit of Pravara Rural College of Architecture organized a creative and eco-friendly initiative to develop a children's play area at Adgaon Anganwadi. The project focused on using recycled materials, particularly old tires, to create a playful and safe space for the children to explore and enjoy.

On January 9 and 10, 2023, a team of 27 enthusiastic participants, including teacher coordinators, gathered at Zilla Parishad Primary School, Adgaon to undertake the development of the children's play area. The event was guided by the Teacher Coordinators, Ar. Nikhil Vikhe, and Ar. Tejaswini Gholap, along with the dedicated Student Coordinator, Anjali Ubale.

The participants creatively repurposed old tires and other recycled materials to construct innovative play structures, such as tire swings, climbing frames, and play tunnels, providing a stimulating play environment for the children.

The project highlighted the importance of using recycled materials to minimize environmental impact and promote sustainability in play area development.

The school staff and local community members actively participated in the activity, demonstrating collaborative efforts to enhance the facilities for the children.

The team ensured that all play structures were safe and child-friendly, following necessary safety guidelines to provide a secure play environment for the children.

Ar. Deepika Arbatti expresses its appreciation to all the participants and the Teacher Coordinators for their commitment to creating a positive impact in the lives of the children and the community.

It is expected that the newly developed play area will provide endless joy and learning opportunities for the children at Zilla Parishad Primary School Adgaon, fostering a love for sustainability and environmental consciousness from a young age.

Waste segregation and proper disposal of recyclable and non-recyclable materials

Students are removing weeds from the field

Summary :

Under the guidance of Teacher Coordinator Ar. Deepika Arbatti, the National Service Scheme (NSS) Pravara Rural College of Architecture organized a community-driven initiative for the "Cleaning of Adgoan Grampanchayat." With the participation of 25 enthusiastic students and volunteers, the event aimed to contribute to a cleaner and hygienic environment within the Grampanchayat premises. The cleaning drive witnessed active participation from both student volunteers and local residents, fostering a spirit of community engagement and mutual responsibility for maintaining a clean environment.

During the event, the organizers conducted brief awareness sessions on the importance of hygiene and cleanliness in public spaces, emphasizing the collective role in maintaining a healthy and sanitized community. The participants ensured proper waste disposal, segregating recyclable materials and disposing of non-recyclable waste responsibly, contributing to sustainable waste management. Through this activity, the NSS aimed to inspire a sense of environmental consciousness among the participants and the community, motivating them to take active roles in keeping their surroundings clean and green. It is expected that the impact of this cleaning drive will inspire continued efforts to maintain a clean and hygienic environment within Adgoan Grampanchayat, creating a model of community-driven change for a healthier and more sustainable future.

Students are cleaning surrounding of water body using cleaning tools

Summary:

The National Service Scheme (NSS) unit of PRCA organized a meaningful and impactful "Cleaning of Water Body" activity at Adgaon Bk Village. This event aimed to create awareness about the importance of preserving water bodies and the significance of community involvement in maintaining a clean and healthy environment.

On January 12, 2023, a group of 25 enthusiastic participants, including students and volunteers, gathered at the Adgaon Bk Village to actively take part in the cleaning activity. The event was led and supervised by the dedicated Teacher Coordinators, Ar. Sonali Chaskar, and Ar. Tejaswini Gholap, along with the Student Coordinator, Sahil Amrao.

The participants divided into two groups; each assigned a specific area of the water body. Trash bags, and necessary cleaning tools, they began the cleaning drive, meticulously picking up litter and waste that had accumulated around the water body.

During the activity, the coordinators took the opportunity to educate the participants about the adverse effects of water pollution on aquatic life and the ecosystem. They emphasized the importance of maintaining water bodies to ensure a sustainable environment for future generations. The event not only raised awareness about the importance of water conservation but also showcased the power of collective efforts in driving positive change within communities. At the end of the Program officer of NSS Ar. Deepika Arbatti acknowledges the dedication and hard work of the Teacher Coordinators, Ar. Sonali Chaskar and Ar. Tejaswini Gholap, along with the efficient organization and leadership of Student Coordinator, Sahil Amrao.

Summary:

The NSS Unit of Pravara Rural College of Architecture organized a meaningful and socially responsible event, "Cleaning of Cremation Ground" at Adgaon. This activity aimed to foster community engagement and create a clean and hygienic environment at the cremation ground, while also promoting the conservation of medicinal plants by planting them on the site.

On January 13, 2023, a group of 25 enthusiastic participants, including students and volunteers, gathered at the Adgaon cremation ground to carry out the cleaning drive. The event was organized and supervised by the dedicated Teacher Coordinators, Ar. Ashwini Gholap, and Ar. Suraj Ubale, along with the efficient Student Coordinator, Pravin Pherang.

The participants worked diligently to clean the cremation ground, removing debris, dry leaves, and other waste, creating a cleaner and more dignified space. As part of the initiative to promote the conservation of medicinal plants, the students planted five medicinal plants at strategic locations around the cremation ground. This step aimed to enhance the site's ecological value and contribute to the overall well-being of the environment. At the end of the activity the NSS Unit Program officer of PRCA Ar. Deepika Arbatti expresses its gratitude to the Teacher Coordinators, Ar. Ashwini Gholap, and Ar. Suraj Ubale, for their guidance and support in organizing this impactful event.

2021-21	Lecture on Natural resources and conservation at NSS camp, adgaon
Location:	Zhilla Parishad school and college Adgaon Bk
Teacher coordinator	Ar. Sonali Chaskar Ar. Charuta Sonparote
Student Coordinator	Rachna Deshmukh
Guest Person:	Ar. Sonali Chaskar (Associate prof. PRCA)
Aim:	To raise awareness among the participants about the importance of conserving natural resources and adopting sustainable practices for environmental protection.
Objectives:	<ol style="list-style-type: none"> I. To increase awareness among the participants about the significance of natural resources in sustaining life and the vital role they play in maintaining ecological balance. II. To highlight the impact of human activities on climate change and raise awareness about the role of conservation in mitigating the adverse effects of climate change. III. To educate students about various conservation practices, such as water conservation, energy efficiency, waste management, and sustainable architecture, to reduce the depletion of natural resources. IV. To emphasize the importance of biodiversity conservation and the need to protect ecosystems to ensure ecological diversity and resilience.
Date:	23/01/2022
Duration:	2.30 hours
No Of Participants:	65
Photographs:	<div style="display: flex; justify-content: space-around;"> <div style="text-align: center;">  <p>Ar. Sonali Chaskar interacting with students during the session</p> </div> <div style="text-align: center;">  <p>Felicitation of Speaker Ar. Sonali Chaskar by NSS officer Ar. Deepika Arbatti</p> </div> </div>

Summary:

Pravara Rural College of Architecture organized an enlightening seminar on "Natural Resources and Conservation" as part of the National Service Scheme (NSS) Camp. The event aimed to raise awareness about the importance of conserving natural resources and adopting sustainable practices to protect the environment.

On January 13, 2023, 65 students gathered at Adgaon to attend the seminar on natural resources and conservation. The seminar was led by Teacher Coordinator, Ar. Charuta Sonparote, and featured an insightful presentation by Ar. Sonali Chaster, an Associate Professor at PRCA. Student Coordinator, Shrawani Burhade, played a key role in organizing and coordinating the seminar.

Ar. Sonali Chaster highlighted the significance of natural resources in sustaining life and maintaining ecological balance, emphasizing their finite nature and the need for responsible usage.

The seminar focused on various conservation practices, such as water conservation, energy efficiency, waste management, and sustainable architecture, to minimize environmental impact.

The discussion raised awareness about the impact of human activities on climate change and the role of conservation in mitigating its adverse effects. The seminar emphasized the importance of biodiversity conservation and the protection of ecosystems to ensure ecological diversity and resilience. Ar. Sonali Chaster elaborated on the principles of green architecture and the incorporation of sustainable design in buildings to reduce carbon footprint. The seminar included an interactive Q&A session, allowing students to engage with the speaker, seek insights, and discuss ways to implement conservation practices. The session provided students with valuable insights into the importance of conserving natural resources and adopting sustainable practices for environmental protection.

The NSS officer of PRCA Ar. Deepika Arbatti expresses thanks to speaker Ar. Sonali Chaskar, an Associate Professor at PRCA, Teacher Coordinator, Ar. Charuta Sonparote, for her guidance and support in conducting this enlightening seminar. The valuable contribution of Ar. Sonali Chaskar as the guest speaker added depth and perspective to the seminar's content.

2022-23	PRCA organised seminar at Adgaon on conservation of old forts under NSS camp
Location:	Adgaon Bk
Teacher coordinator	Ar. Charuta Sonparote Ar. Kapil Burhade
Student Coordinator	Rachna Deshmukh
Guest Person:	Dr. Ashok Bidgar
Aim:	The aim of the seminar on Conservation of Old Forts is to raise awareness about the historical significance and challenges faced in preserving old forts and fortifications. The seminar aims to promote the importance of conserving cultural heritage and inspiring students to actively engage in the protection and restoration of these historical landmarks.
Objectives:	<ol style="list-style-type: none"> I. To educate participants about the historical significance of old forts, fortifications, and their role in shaping the cultural heritage and identity of the region. II. To highlight the challenges faced in preserving old forts, including issues related to deterioration, encroachment, and lack of awareness, and to discuss potential solutions. III. To provide students with valuable insights from an expert in historical conservation, enabling them to gain a deeper understanding of the subject. IV. To emphasize the importance of preserving cultural heritage and historical landmarks for the present and future generations. V. To explore and discuss sustainable conservation practices and methodologies that ensure the long-term preservation of old forts.
Date:	14/01/2023
Duration:	2.30pm to 4.00pm
No Of Participants:	46
Photographs:	<div style="display: flex; justify-content: space-around;"> <div style="text-align: center;">  <p>Dr. Ashok Bidgar interacting with students</p> </div> <div style="text-align: center;">  <p>Dr. Ashok Bidgar explaining conservation strategies</p> </div> </div>

Summary:

Pravara Rural College of Architecture organized an enlightening seminar on "Conservation of Old Forts" as part of the National Service Scheme (NSS) Camp. The event aimed to raise awareness about the historical significance and conservation challenges of old forts and fortifications, emphasizing their importance in preserving cultural heritage.

On January 14, 2023, 46 enthusiastic students gathered at Adgaon to attend the seminar on the conservation of old forts. The event was spearheaded by Teacher Coordinators, Ar. Charuta Sonparote and Ar. Kapil Burhade, and expertly facilitated by Guest Speaker, Dr. Ashok Bidgar. Student Coordinator, Rachna Deshmukh, played a pivotal role in organizing and coordinating the seminar.

Highlights of the Seminar:

Expert Insights: Dr. Ashok Bidgar, a renowned expert in historical conservation, delivered a thought-provoking talk on the historical significance of old forts and the challenges faced in their preservation.

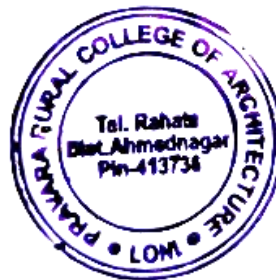

Cultural Heritage: The seminar emphasized the rich cultural heritage associated with old forts, highlighting their architectural brilliance, historical importance, and connection to the region's identity.

Conservation Strategies: The discussion revolved around various conservation strategies and sustainable practices to safeguard and restore old forts, ensuring their survival for future generations.

Community Involvement: The seminar underscored the significance of community involvement and public awareness in preserving and protecting old forts as shared cultural assets.

Interactive Session: The seminar featured an interactive Q&A session, allowing students to engage with the guest speaker, seek clarifications, and share their perspectives on heritage conservation.

The NSS program officer of PRCA Ar. Deepika Arbatti expresses its gratitude to the Teacher Coordinators, Ar. Charuta Sonparote and Ar. Kapil Burhade, for their guidance and support in conducting this educational event. The expert knowledge shared by Guest Speaker, Dr. Ashok Bidgar, enriched the seminar's content and inspired the participants to actively engage in heritage conservation.

Students at the Lontek Temple and diligently worked to clean the temple surroundings

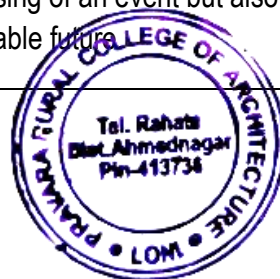

Gramin Rugnalaya (Rural Hospital), where students focused on maintaining a clean and sanitary environment for patients, visitors, and medical staff

Summary:

The Clean India Campaign, in collaboration with the National Service Scheme of Pravara Rural College of Architecture, was a remarkable initiative aimed at promoting cleanliness, waste management, and environmental awareness. This event, held on October 31, 2022, showcased the institution's commitment to contributing positively to society and the environment. With the guidance of Ar. Deepika Arbatti, the teacher coordinator, and the leadership of Onkar Nerkar, the student coordinator, the NSS participants actively engaged in various activities to make the campaign a resounding success. Participants gathered at the Lontek Temple and diligently worked to clean the temple surroundings, pathways, water bodies and adjoining areas. Their efforts helped restore the temple's sanctity and hygiene. The cleanup effort extended to the premises of the Gramin Rugnalaya (Rural Hospital), where students focused on maintaining a clean and sanitary environment for patients, visitors, and medical staff.

The campaign concluded at the bustling Loni Bus Stand, where participants collaborated to remove waste, enhancing the overall aesthetics of the transportation hub. The 17 students who participated exhibited a commendable level of enthusiasm and commitment. Their dedication to the cause and their willingness to contribute to the community's welfare demonstrated their understanding of their role as responsible citizens. As part of the cleanup activities, participants collected various forms of waste, including plastics, papers, and other non-biodegradable materials. The collected waste was carefully segregated, with recyclable items being separated for proper recycling. The end of the activity marked not only the closing of an event but also the beginning of a continuous journey toward a cleaner and more sustainable future.

NOTICE

This is to inform 1st year students that Bird Watching Workshop at Lontake campus organized in collaboration with the Nature Conservation Society. This exciting event will provide you with a unique opportunity to explore the avian biodiversity on the Lontake campus and its surroundings.

Event Details:

Activity: Bird Watching Workshop

Date: December 10, 2022

Duration: 2 Hours (9:00 AM to 11:00 AM)

Venue: Lontake Campus, Pravara Rural College of Architecture

Teacher Coordinator: Mr. Pradip Deshmukh

Student Coordinator: Mr. Sanket Kanawade

Participants: All 1st-year students are invited to attend.

Workshop Highlights:

- Discover the rich diversity of bird species that inhabit our campus area.
- Learn about the characteristics, behaviours, and habitats of various bird species.
- Understand the importance of bird conservation and their role in maintaining ecological balance.
- Expert guidance from experienced birdwatchers and naturalists.
- Exciting activities and interactive sessions.

Join us in this captivating and educational experience as we explore the diverse birdlife of Lontake campus and deepen our understanding of the natural world.

For any queries or further information, please feel free to contact Mr. Sanket Kanawade, the Student Coordinator.

2022-23	Bird Watching Workshop
Location:	Lontek Campus
Teacher coordinator:	Ar. Pradip Deshmukh
Student Coordinator:	Sanket Kanawde
Expert Person:	Ar. Pradip Deshmukh Assi. Professor, Pravara Rural College of Architecture, Loni
Aim:	To introduce students about Birds which are seen in the campus as well as nature
Objectives:	i. To introduce students about Nature ii. To introduce students about various Birds and their habitat iii. To introduce students about importance of birds in the nature.
Date:	10/12/2022
Duration:	2:00 hours, 9:00 am To 11:00 am
Number of students:	20
Photographs:	 <p>Teachers giving information about identified bird</p>  <p>Students identifying deferent birds</p>

Teacher showing book on birds in Maharashtra and their identities

Teacher summarizing the session

Summary:

The Bird Watching Workshop, organized by Pravara Rural College of Architecture, took place on December 10, 2022, at the picturesque Lontake campus. The workshop aimed to provide an engaging and educational experience for the 1st-year students, promoting an understanding of the biodiversity and the importance of bird conservation.

The workshop commenced at 9:00 AM with a brief introduction by Mr. Pradip Deshmukh, the Teacher Coordinator, emphasizing the significance of birdwatching in understanding ecological balance. The students were divided into small groups, each led by experienced birdwatchers and naturalists.

Guided by teacher coordinator Ar. Pradip Deshmukh, the students embarked on a journey of exploration, keenly observing the various bird species present in and around the campus. Equipped with binoculars, they focused on bird identification, behaviour, and habitat preferences.

Students had actively participated in this workshop. After completing this workshop, students had developed the ability to identify various types of birds found on college campuses, which helped them to increase their concentration. Students had understood the significance of birds in nature.

Highlights:

- Identification of numerous bird species: During the workshop, participants had the opportunity to identify and observe several bird species, including resident birds and migratory visitors.
- Understanding bird behaviour: Students learned about the unique behaviours of different birds, such as feeding patterns, nesting habits, and communication methods.

- Environmental awareness: The workshop emphasized the importance of protecting natural habitats and conserving biodiversity for the well-being of birds and the ecosystem as a whole.

The Bird Watching Workshop at Pravara Rural College of Architecture was a resounding success, as it provided an enriching experience for the participants. Through this event, the students gained a deeper appreciation for the beauty and diversity of avian life, instilling a sense of responsibility towards nature conservation.

Has organised

“Mass Plantation At the Same Time At Different Places” 24 July 2021

An Initiative By Team Socio PRCA:

This concept is initiated by our students for mitigating with Deforestation. Concept of Mass Plantation at different places is result of Pandemic and online Education. Raising This Deforestation issue at their native places Our students are trying to contribute to the Society through this environmental Initiative.

Deforestation has been a major threat to the environment for decades and there is no stopping to it. In addition to harming biodiversity and infringing on the rights and livelihoods of local communities, forest destruction at this huge scale is disastrous for the global climate. Research shows that forests play an important role in curbing climate change and we are completely responsible for it.

Summary:

On 24th July 2021, Pravara Rural College of Architecture (PRCA), Loni, organized a Mass Plantation on Same Day Same Time, an environmental initiative proposed and driven by the students. In response to the pressing issue of deforestation, the students took the lead in creating awareness about tree plantation among citizens and encouraging active participation in the activity. The activity aimed to mitigate deforestation by promoting mass plantation at different locations simultaneously. The concept of mass plantation at various places was initiated by PRCA students, inspired by the pandemic and online education. By raising awareness about deforestation at their native places, the students sought to contribute to society through this environmental initiative. The Mass Plantation activity was a result of the students' creative response to the challenges posed by the pandemic and the shift to online education. The concept of simultaneous mass plantation at different locations emphasized the collective effort required to combat deforestation and promote environmental sustainability. PRCA students actively spread the word about the initiative in their native places, encouraging their family members, neighbors, and community members to participate in tree plantation. Each student aimed to plant a minimum of five saplings during the activity, contributing significantly to the green cover in their respective areas.

Ar. Dipeeka Arbatti provided guidance and support to the students in organizing and conducting the Mass Plantation activity. The Principal of PRCA, Rajeshwari Jagtap, appreciated the students' dedication and commitment to environmental conservation through this initiative. The Mass Plantation on Same Day Same Time had a positive impact on both the PRCA community and the residents of the students' native places. By involving family members and neighbors, the students fostered a sense of environmental responsibility among the community, inspiring more people to take active steps towards tree plantation and conservation.

The Mass Plantation on Same Day Same Time organized by PRCA, Loni, exemplified the proactive spirit of the students in addressing environmental challenges. Their initiative to raise awareness about deforestation and promote tree plantation at various locations simultaneously showcased the collective power of small actions. Through this environmental initiative, PRCA students demonstrated their commitment to contributing to society and the environment, making a positive impact on their communities and inspiring others to follow suit.

Notice

This is to inform all students that Bird Feeder Competition on the occasion of World Nature Conservation Day 28 Jul, 2021

Event Details:

Activity: Bird Feeder Competition

Last date of submission: 20/07/2021

Teacher Coordinator: Ar. Charutra Sonparote
Ar. Vrushali Jadhav

Participants: All students are invited to attend.

Competition Guidelines:

1. The participants were required to design and construct bird feeders using eco-friendly materials. The feeders should be designed to attract various bird species and provide them with food and shelter.
2. Material details is compulsory along with model photograph.
3. Students had to submit their designs and stage-wise construction photos A3 size sheet to the coordinators' email addresses for evaluation.
4. Submit the work before 20th July 2021
5. The competition focused on promoting sustainable and innovative designs that would have a positive impact on bird populations in urban areas.
6. Result announced at 28th July 2018 and certificate is given to all participants
7. 1st three winners get Books as a winner

Please refer the attached poster for further information. For any queries or further information, please feel free to contact AR. Charuta Sonparote, the teacher Coordinator.

Pravara Rural College Of Architecture, Loni has Organised

INNOVATIVE BIRD FEEDER MODEL MAKING COMPETITION

Every year on July 28th,

'World Conservation Day'

is celebrated internationally to increase awareness about the best practices to protect our Natural Resources. Feeding birds can be a fascinating educational activity for all ages, which contributes in Nature Conservation.

CREATE A PERFECT MODEL FOR A BIRD FEEDER !!!

Competition details-

- The material specification is compulsory along with working model photographs and design concept.
- Send us Photographs of your unique and innovative BIRD FEEDER MODEL.
- Submission in the form of 'Stage wise Photographs of model with design concept on A3 size sheet'.
- Result and winning entries of competition will be declared on 28th July.
- Certificates will be issued to every participants based on the information filled in Google forms.

2021-2022

2021-2022	On the occasion of World Nature Conservation Day PRCA, had organised Bird Feeder Competition
Location:	Online mode (COVID-19)
Activity Head:	Ar. Charutra Sonparote Ar. Vrushali Jadhav
No of Participated Students:	16
Aim:	The aim of the Bird Feeder Competition is to promote environmental awareness, wildlife conservation, and sustainable practices among students, while celebrating World Nature Conservation Day.
Objectives:	<ol style="list-style-type: none"> I. To create Educational Awareness: Raise awareness among students about the importance of bird conservation and their role in maintaining ecological balance. II. To promote Sustainable Practices: Encourage students to use eco-friendly and sustainable materials in the construction of bird feeders, promoting responsible environmental practices. III. Creativity and Innovation: Provide a platform for students to showcase their creativity and innovative ideas in designing bird feeders that attract a diverse range of bird species. IV. To engagement and participation: Engage students actively in nature-oriented activities and enable them to participate in conservation efforts, even during the COVID-19 pandemic when learning is taking place from home. V. Hands-on Learning: Offer a hands-on learning experience where students can learn about birds, their feeding habits, and how to create bird-friendly environments. VI. Appreciation for Nature: Instill a deeper appreciation for nature and wildlife, encouraging students to develop a sense of responsibility in preserving our natural resources. VII. Long-term Impact: Inspire students to continue their involvement in wildlife conservation and environmentally conscious activities beyond the competition, making a lasting impact on their communities.

Summary:

In the midst of the COVID-19 pandemic when students were learning from home, Pravara Rural College of Architecture organized a unique Bird Feeder Competition to celebrate World Nature Conservation Day on July 28, 2021. The competition aimed to engage students in a creative and educational activity that promotes wildlife conservation and bird habitat enhancement.

A total of 16 students enthusiastically participated in the Bird Feeder Competition. The competition provided them with an opportunity to showcase their artistic skills and commitment to environmental conservation.

The competition was officially announced on the college website, social media platforms, and through email communication to all students.

As the students progressed with their construction, they sent stage-wise photos of their work to the coordinators as evidence of their creative process.

After careful evaluation of all the entries, the following students were declared as winners:

1. Pranali Nibe - First Rank
2. Pratiksha Tikande - Second Rank
3. Pratik Anap - Third Rank

The top three winners were awarded Books for their outstanding contributions to the competition and their dedication to promoting bird conservation. All participants get certificate of participations.

The Bird Feeder Competition on World Nature Conservation Day provided an enriching and rewarding experience for the participants. Through their creative and sustainable designs, the students demonstrated their commitment to wildlife conservation and environmental stewardship even during challenging times. The competition successfully fostered a deeper appreciation for nature and its importance in our lives.

The college acknowledges the efforts of Ar. Charutra Sonparote and Ar. Vrushali Jadhav, the Teacher Coordinators, for their support and guidance in organizing this successful competition.

Inauguration of open space by Faculty Ar. Sonali chaskar

Night View of open space

Summary:

The proactive students of architecture embarked on an ambitious project to rejuvenate the open space in Trishul Nagar, situated in the Taluka Rahata of Ahmednagar District. The primary objective behind this initiative was to transform the open space into a functional area that would benefit the local residents. The aim was to create a recreational hub and curb the misuse of the area for improper waste disposal. Through their hard work and innovative design, the students succeeded in converting the open space into a multi-functional environment, comprising play areas for children and seating areas for senior citizens. The project also emphasized sustainable practices, utilizing reusable materials for construction.

Outcome:

The Open Space Development initiative in Rahata bore significant outcomes, manifesting the positive impact of collective efforts:

Community Utilization: The transformed open space provided a gathering place for nearby residents, encouraging social interactions and fostering a sense of community among them.

Recreational Hub: The establishment of designated play areas for children and seating spots for senior citizens created a balanced space catering to different age groups' recreational needs.

Environmental Awareness: Through the use of reusable materials, the project promoted sustainable practices among the students and the community, fostering a greater sense of environmental consciousness.

Prevention of Misuse: By turning the open space into a functional and well-maintained area, the initiative effectively curbed the misuse of the space for dumping waste and garbage.

Beautification: The students' efforts in painting walls, tyres, and planting trees enhanced the aesthetic appeal of the area, contributing to the overall beautification of the neighborhood.

Skill Development: Students involved in the project gained hands-on experience in design, construction, landscaping, and sustainable architecture, contributing to their personal and professional growth.

Inspiration for Change: The initiative set an example for the community, inspiring others to engage in similar projects that improve their surroundings and contribute positively to the environment.

Coordination and Leadership: Coordinator Sonali Chaskar and Student Coordinator Varun Agrawal demonstrated effective coordination and leadership skills in managing the project, thereby honing their own organizational abilities.

Community Pride: The open space development became a point of pride for the community, symbolizing the positive outcomes of collaborative efforts and showcasing the potential for positive change.

In conclusion, the Open Space Development initiative at Rahata, led by Coordinator Sonali Chaskar and Student Coordinator Varun Agrawal, underscored the students' commitment to

community welfare and sustainable design practices. By creating a vibrant and functional area for residents, the initiative exemplified the power of architecture in shaping environments and enhancing the quality of life.

NOTICE

This is to inform all the students that a tree plantation event is being organized on the occasion of Independence Day on 1 August 15, 2019 at Lontek campus. Attendance is mandatory for all students. The program will start at 9.00am after flag hosting.

Event Details: Date: August 15, 2019

Time: 9:00 AM to 10:00 AM (1-hour duration)

Venue: Lontek Campus, Pravara Rural College of Architecture

Agenda:

1. Brief introduction and importance of tree plantation.
2. Distribution of saplings to participants.
3. Planting saplings at designated areas around the campus.
4. Tips on caring for the newly planted trees.

Please note the following guidelines:

1. All students and faculty members are encouraged to participate in this noble initiative.
2. Participants are requested to assemble at the designated area on time.
3. Wear appropriate clothing and footwear suitable for outdoor activities.
4. Bring gardening gloves and small shovels or gardening tools if available.
5. Let's join hands to make this event a grand success and contribute to a greener and healthier environment. Together, we can make a positive impact on our campus and the world around us.
6. For any inquiries or further details, please feel free to contact the event organizing committee.

Let's join hands to make this event a grand success and contribute to a greener and healthier environment. Together, we can make a positive impact on our campus and the world around us.

For any inquiries or further details, please feel free to contact the event coordinator Ar. Sonali Chaskar.

Tree Plantation by staff at Lontek campus

Tree Plantation by staff at Lontek campus

Summary:

On the occasion of Independence Day, the college organized a tree plantation to promote environmental awareness and sustainability among students and staff. The event took place on Lontek campus and aimed to celebrate India's independence while fostering a sense of responsibility towards the environment. The event is coordinate by Ar. Sonali Chaskar.

The event saw enthusiastic participation from 55 individuals, including students and staff members of Pravara Rural College of Architecture. Dr. K.T.V. Reddy, the Director Technical of PRES, graced the "Tree Plantation at Lontek Campus" event as the Guest of Honor. This active involvement showcased a shared commitment to fostering a greener and more sustainable environment. The event began after flag hoisting ceremony at college campus. Principal told about the importance of preserving the environment for future generations. After the ceremonial proceedings of flag hosting, everyone enthusiastically participated in the tree plantation activity. A variety of native saplings were provided, carefully chosen to suit the local ecosystem. The participants, armed with shovels and gardening tools, set out to dig holes and plant the saplings around the campus.

The Independence Day tree plantation drive proved to be a grand success, leaving a positive impact on the campus and its community. By instilling a sense of responsibility towards nature, the college demonstrated its dedication to a greener and more sustainable future for India, aligning the celebration of independence with a commitment to the nation's environmental well-being. In the end at 10am, the Ar. Sonali Chaskar thanked to all for successful event and participating in that fruitful activity.

For planting a mangrove tree in coastal Maharashtra

By planting a mangrove tree you will be contributing towards

- ✓ Green future of the planet
- ✓ Providing shelter to marine organisms
- ✓ Enhancing Mangrove ecosystem
- ✓ Absorption & storage of atmospheric carbon dioxide up to 5 times more
- ✓ Ensuring food safety for the biodiversity
- ✓ Livelihood for coastal communities
- ✓ Protection from floods, tsunami & cyclones
